- 7/4 and 7/5 Stillwater CERT was called out to by OEM to set up a Cooling Center for our township residents. Power outages and road closers caused many issues and hardships for residents. On July 4th the CERT volunteers set up and manned the center. 10 Adults and 6 children used the cooling center for the provided services. Cold drinks, Wifi, current local news, charging stations, games, snacks and lunch. Ken Lauffer used his personal generator to charge cell phones for those who did not have power adaptors. This was a huge help.
